SPEND MORE TIME BEING CREATIVE AND LESS TIME TRACKING DOWN APPROVALS

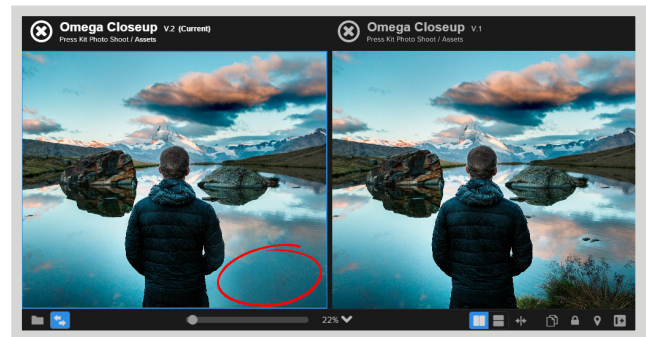

Review and Approve Creative Assets Faster

Quickly share and gain feedback on any file type including documents, designs, and audio and video content within a single, collaborative proofing environment. Save time with a suite of intuitive editing, comment, and timestamp tools that contextualize every edit.

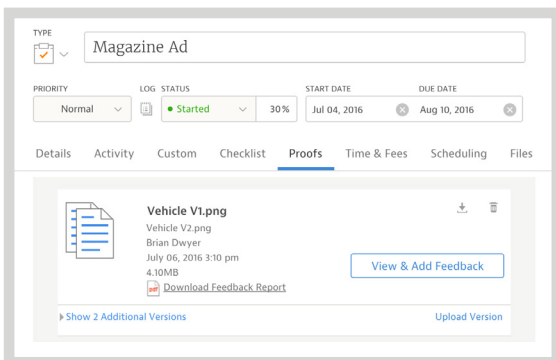

Eliminate Versioning Nightmares

Easily see which version is most recent. Compare version histories in split-screen mode so you can ensure accurate changes and spot introduced errors. Eliminate siloed markups in various file formats, including email attachments, and printouts.

Combine Digital Proofing and Project Management

Know at a glance who needs to review, and invite clients into a shared and transparent collaborative process. With proofing accessible from any project, task, deliverable, and milestone, you enjoy a seamless client engagement from start to finish.
