

Slack Integration

Collaborate Without Leaving Conversations.

Integrate Mavenlink's powerful project management capabilities with Slack to increase collaboration and deliver your projects more predictably and profitably.

With Mavenlink and Slack, your team can stay in sync.

BENEFITS

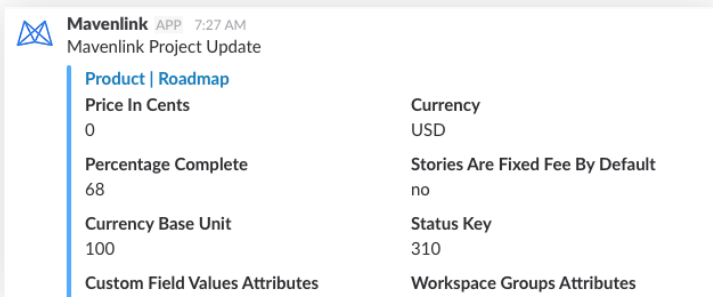

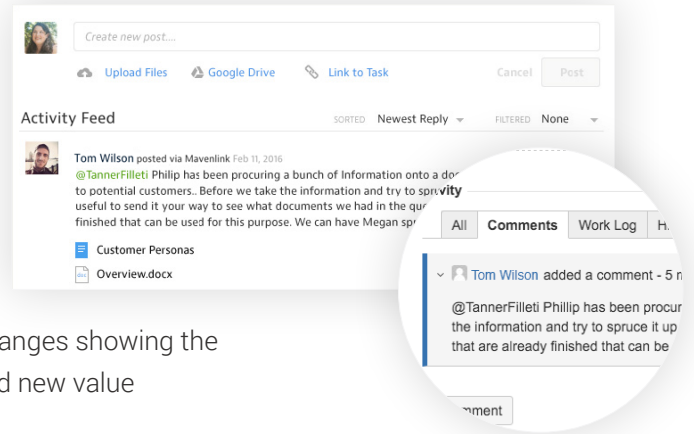

- Share your Mavenlink project communications automatically to your team's preferred Slack channel.
- Immediately receive notifications as work progresses in Mavenlink, so your team can stay informed and quickly respond to changes.
- Stay updated on changes to key project and task fields like due date, priority and status without leaving Slack.

SHARE YOUR MAVENLINK PROJECT COMMUNICATIONS AUTOMATICALLY

Stay in sync without leaving your preferred app

Synchronize Slack messages with Mavenlink activity feed posts to facilitate cross-team communication. Other information synchronized includes:

- Public project and task posts
- New project details
- Key project field changes showing the original value and new value
- New task details
- Key task field changes showing the original value and new value
- Direct links to the Mavenlink project and task from the channel message
- + More

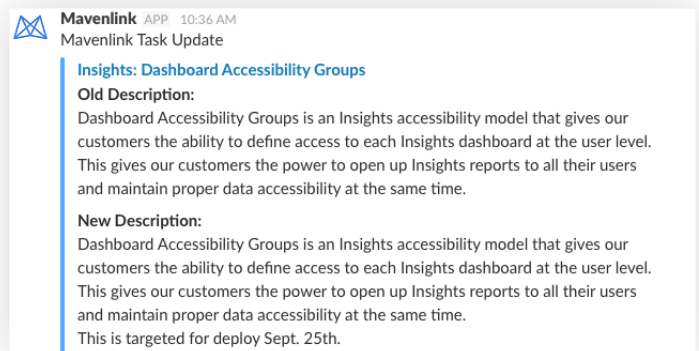

Receive notifications as work progresses in Mavenlink

You can send instant notifications to Slack when certain actions are taken within Mavenlink so you and your team are always on the same page.

Stay up-to-date with changes

Keep track of edits to key task and project fields to stay-up-to date and quickly respond to changes.
